

SIMPLOT DUWET

Turf-grass Wetting Agent

Simplot Duwet is a concentrated wetting agent effective in reducing dew on grass surfaces and in overcoming localised Dry Patch and general water repellence in the soil profile.

Simplot Duwet contains quick acting surfactants combined with other long-lasting soil surfactants. This allows for fast correction and longer residual wetting effects. Simplot Duwet contains a specific surfactant which attaches to organic surfaces for even longer life in soil profile. This surfactant also attaches to leaf surfaces for dispersion of water. This is particularly effect on dew build-up.

Simplot Duwet enhances overall infiltration and dispersion of water in profile by overcoming water repellence factors caused by thatch and organic acids attached to soil particles.

DIRECTIONS FOR USE: TURF

Boom Spray:

Rate: 250 - 500 mL / 100 m²
in 20 L of water.

Irrigate well after application.

Broadacre Use / Injection:

Rate: 10 - 20 L / megalitre of water.
Apply monthly as required.

Dew Control:

Rate: 200 mL / 100 m²
with 20 L of water.

Light watering is recommended after application.

PRODUCT ANALYSIS

A blend of non-ionic surfactants

PRODUCT SPECIFICATIONS

S.G: 1.05
pH (Neat): 6.5 - 7.5
Appearance: Clear liquid
Shelf Life: 3 years

AVAILABLE PACK SIZES & WEIGHTS

5 Litre: 5.5
20 Litre: 22.0
200 Litre: 220.0
1000 Litre: 1130.0
