

ALL*STAR 3

Turf Perennial Ryegrass

**ANTEP Trialed
Variety**

Density	Wear Tolerance	Colour	Disease Resistance
██████	██████	██████	excellent

- Top Rating for Density
- High Ranking for Turf Colour
- Good Seasonal Growth

ALL*STAR3 is an elite, new generation, heat & humidity tolerant, very dark green, fine textured variety. It is an improved version of ALL*STAR2 which tied for best overall turf quality in the 1999 NTEP Perennial Ryegrass Report 01-1 across 28 US and Canadian locations. All*Star 3 performed exceptionally well in the 2007 ANTEP perennial ryegrass Trial.

It is an endophyte enhanced variety with high resistance to disease and pests. It is highly recommended for permanent turf applications or for winter overseeding of dormant bermudagrass.
